

Textbook of Functional Medicine - Chapters and Authors

1	Vision and Mission of IFM	David S. Jones, MD and Sheila Quinn
2	What is Functional Medicine?	David S. Jones, MD, Jeffrey S. Bland, PhD, Sheila Quinn
3	Why Functional Medicine?	
	3a Importance of Improving Management of Complex, Chronic Disease	David S. Jones, MD and Sheila Quinn
	3b Our Aging Population and the Centrality of Diet, Lifestyle, and Environment	David S. Jones, MD and Sheila Quinn
	3c Functional Medicine Incorporates Genomics	Jeffrey S. Bland, PhD
4	Training Clinicians in New Approaches to Care	Sheila Quinn and David S. Jones, MD
5	Changing the Evidence Model	
	5a Functional Medicine and the Emerging Research Base	David S. Jones, MD
	5b Clinical Decision Making – A Functional Medicine Perspective	Joseph E. Pizzorno, Jr., ND
6	Functional Medicine is Science Based	DeAnn Liska, PhD
7	Biochemical Individuality and Genetic Uniqueness	
	7a Functional Medicine and Biochemical Individuality: A Paradigm Shift in Medicine	Mark Hyman, MD, Sidney MacDonald Baker, MD, David S. Jones, MD
	7b Development of the Knowledge Base in Biochemical Individuality	DeAnn Liska, PhD
8	Patient-Centered Care: Antecedents, Triggers, and Mediators	Leo Galland, MD
9	Homeostasis: A Dynamic Balance	Joseph J. Lamb, MD
10	Web-like Interconnections: The Complex Human Organism	
	10a Web-like Interconnections of Physiological Factors	DeAnn Liska, PhD and Dan Lukaczer, ND
	10b Organ System Function and Underlying Mechanisms: The Interconnected Web	Alex Vasquez, DC, ND
11	Health as a Positive Vitality	Nancy Sudak, MD
12	Healthy Aging: The Promotion of Organ Reserve	David S. Jones, MD, Jeffrey S. Bland, PhD, Sheila Quinn
13	Environmental Inputs	
	13a Diet and Nutrients	Jeffrey S. Bland, PhD
	13b Air and Water	Jeffrey S. Bland, PhD
	13c Physical Exercise	William J. Evans, PhD
	13d Psychosocial Influences	John Tatum, MD
	13e Trauma	Jayne Alexander, DO
	13f Xenobiotics	John Cline, MD
	13g Micro-organisms	Patrick Hanaway, MD
	13h Radiation	Carol R. McMakin, MA, DC

14	Influence of Mind and Spirit	DeAnn Liska, PhD
15	Communications: Intracellular and Extracellular	Gary Darland, PhD
16	Bioenergetics and Biotransformation	Gary Darland, PhD
17	Digestion and Excretion	DeAnn Liska, PhD and Jeffrey S. Bland, PhD
18	Biology of Inflammation	Peter Libby, MD
19	Hormonal Imbalances	
	19a Female Hormones	Bethany Hays, MD
	19b Male Hormones	Daniel Cosgrove, MD
	19c The Epidemic of Insulin Insensitivity	Dan Lukaczer, ND
20	Neurological Imbalances	Catherine Willner, MD
21	Oxidation-Reduction Imbalances	Catherine Willner, MD
22	Detoxification and Biotransformational Imbalances	DeAnn Liska, PhD, Michael Lyon, MD, David S. Jones, MD
23	Immune and Inflammatory Imbalances	Robert Rountree, MD
24	Digestive, Absorptive, and Microbiological Imbalances	Tom Sult, MD
25	Structural Imbalances	Alex Vasquez, DC, ND
26	Clinical Approaches to Environmental Inputs	
	26a Diet and Nutrition	Mark Hyman, MD
	26b Micronutrient Insufficiency	Bruce N. Ames, PhD
27	Clinical Approaches to Immune Imbalance and Inflammation	
	27a Inflammation as a Precursor to CVD	Peter Libby, MD
	27b Inflammation and Autoimmunity: Nutrients and Botanicals as Anti-inflammatories	Alex Vasquez, DC, ND
	27c Essential Fatty Acids	Robert H. Lerman MD, Ph
28	Clinical Approaches to GI Imbalance	
	28a Digestion and Absorption	Thomas Sult, MD
	28b Balance of Flora, GALT, and Mucosal Integrity	Patrick Hanaway, MD
	28c The Enteric Nervous System	Michael D. Gershon, MD
	28d The 4R Program	Dan Lukaczer, ND

29	Clinical Approaches to Structural Imbalance	
29a	Physical Fitness and Exercise	David Musnick, MD
29b	Manipulative Therapy and Functional Medicine: Clinical Interactions between Structure and Function	David Wickes, DC
30	Clinical Approaches to Energy Production and Oxidative Stress	
30a	Bioenergetics, Mitochondrial Function, and Oxidative Stress in Functional Medicine	Jeffrey S. Bland, PhD
30b	Oxidative Stress and Autism	Woody R. McGinnis, MD
30c	Oxidative Stress and Glycemic Control	Dan Lukaczer, ND
31	Clinical Approaches to Detoxification and Biotransformation	
31a	Genetic and Environmental Influences on Detoxification	Michael Lyon, MD, Jeffrey Bland, PhD, and David S. Jones, MD
31b	Systemic In-Office Detoxification	Walter J. Crinnion, ND
31c	Home-Based Detoxification	Peter Bennett, ND
31d	The Gut-Liver Axis	Mary James, ND
32	Hormonal and Neuroendocrine Imbalances	
32a	Cellular Messaging, Part I	Jeffrey S. Bland, PhD and David S. Jones, MD
32b	Cellular Messaging, Part II	Jeffrey S. Bland, PhD and David S. Jones, MD
32c	HPA Axis	Michael Lumpkin, PhD
32d	Insulin and Glucoregulatory Hormone Balance	Dan Lukaczer, ND
32e	Perimenopause, Menopause, and Women's Health	Bethany Hays, MD
32f	Endometriosis and Fibroids	Joel M. Evans, MD
32g	Neurotransmitters	Jay Lombard, MD
32h	Thyroid	Lara Pizzorno, MA Div, MA Lit, LMT, and William Ferril, MD
33	Stress, Spirituality, Poverty and Community—Effects on Health	Robert J. Hedaya, MD, FAPA
34	The Patient's Story and the Clinician's Thinking	Michael Stone, MD and David S. Jones, MD
35	A Place to Start	
35a	Elimination Diet and Laboratory Testing	Dan Lukaczer, ND and Barb Schiltz, MD, RN
35b	Identifying Practical Interventions that Help to Normalize Multiple Symptoms	Nancy Sudak, MD, and Virginia Shapiro, DC
36	The Healing Relationship	
36a	Effective Doctor-Patient Relationships	Edward (Ted) Leyton, MD, CCFP
36b	Helping Patients to Change	Janice M. Prochaska, MSW, PhD and James O. Prochaska, PhD
37	Case Presentation: Metabolic Syndrome and CVD	Mark C. Houston, MD, MSc, SCH, ABAAM, FACP, FAHA
